Introduction

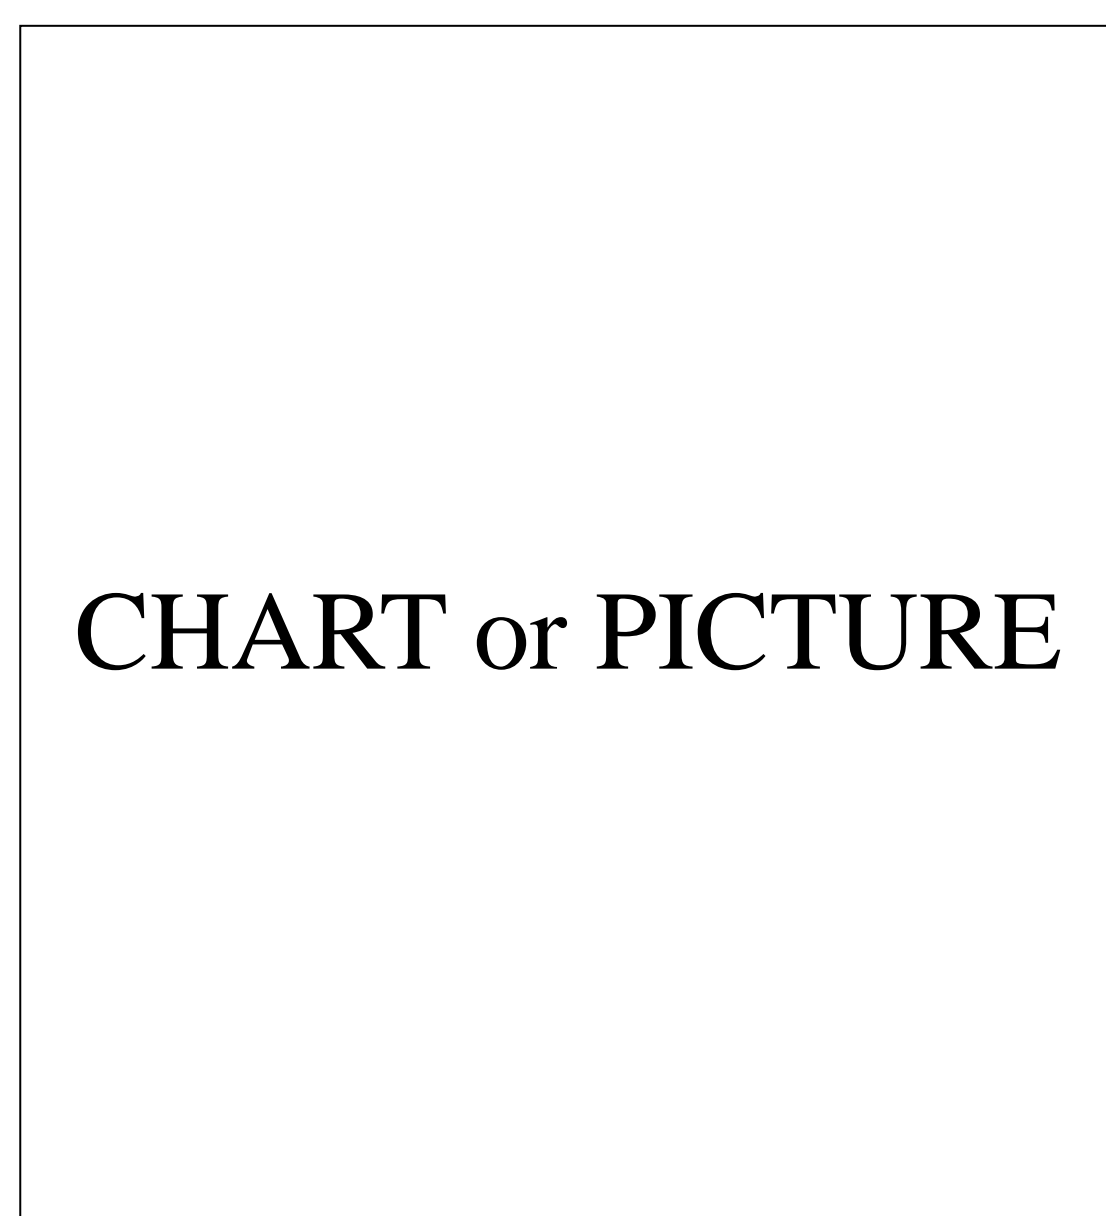

Truck & Bus World Forum posters will be displayed for one full day of the conference.

The template is already in A0 format (0.841 x 1.189 m). If you would like to print copies in A4 or A3 format : (i) select « Print », (ii) select the required printer, (iii) get the printer to print in the correct orientation, (iv) click the Paper/Quality tab, (v) ensure that paper size is set to A4 or A3, (vi) check the scale to fit option in the print dialogue box, done.

The posters must be printed in A0 format. The dimensions 0.80 x 1.20 m will also be accepted. If you have any other specific questions, please write to sophie@qyd.fr

Methods

A full version should be sent to: tbwf@free.fr, sophie@qyd.fr, in English at least, and French is wished, asap but not after October 31, 2013. Large files (>5 Mb) should be sent to these addresses via a file transfer system, e.g. <http://www.sendbox.fr> (in French) or <http://www.dropsend.com/> (in English).

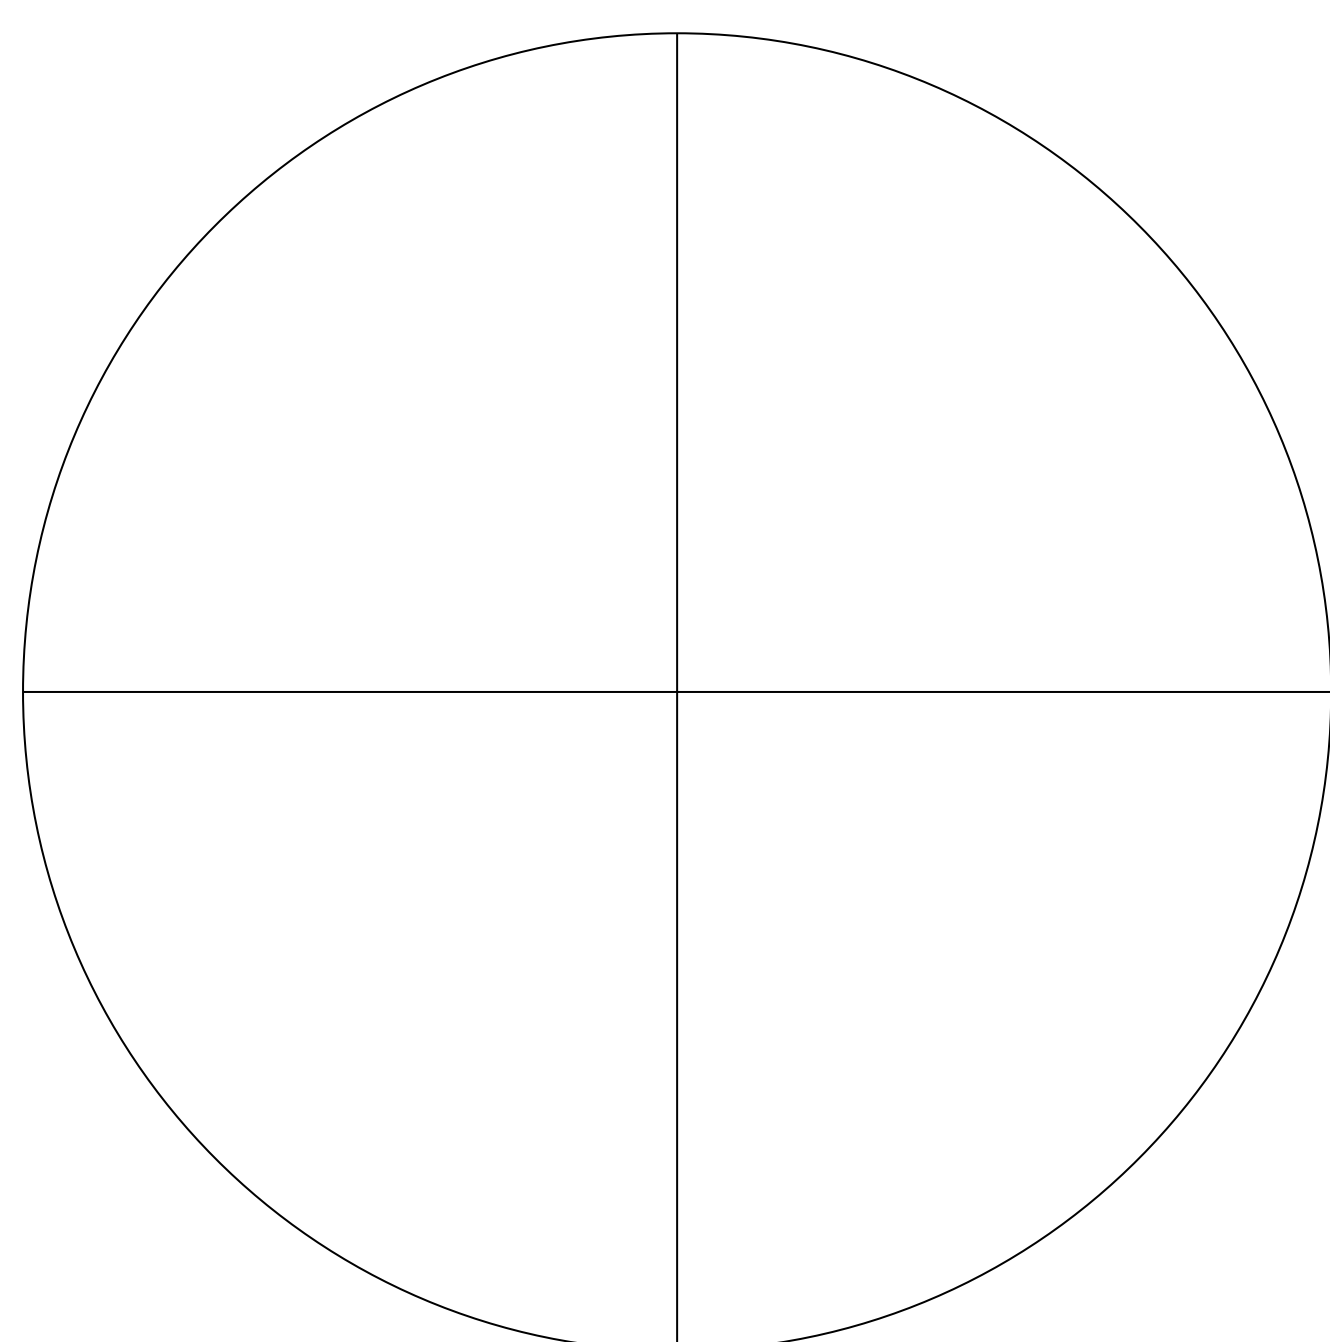

Legend of chart

Heading and footer

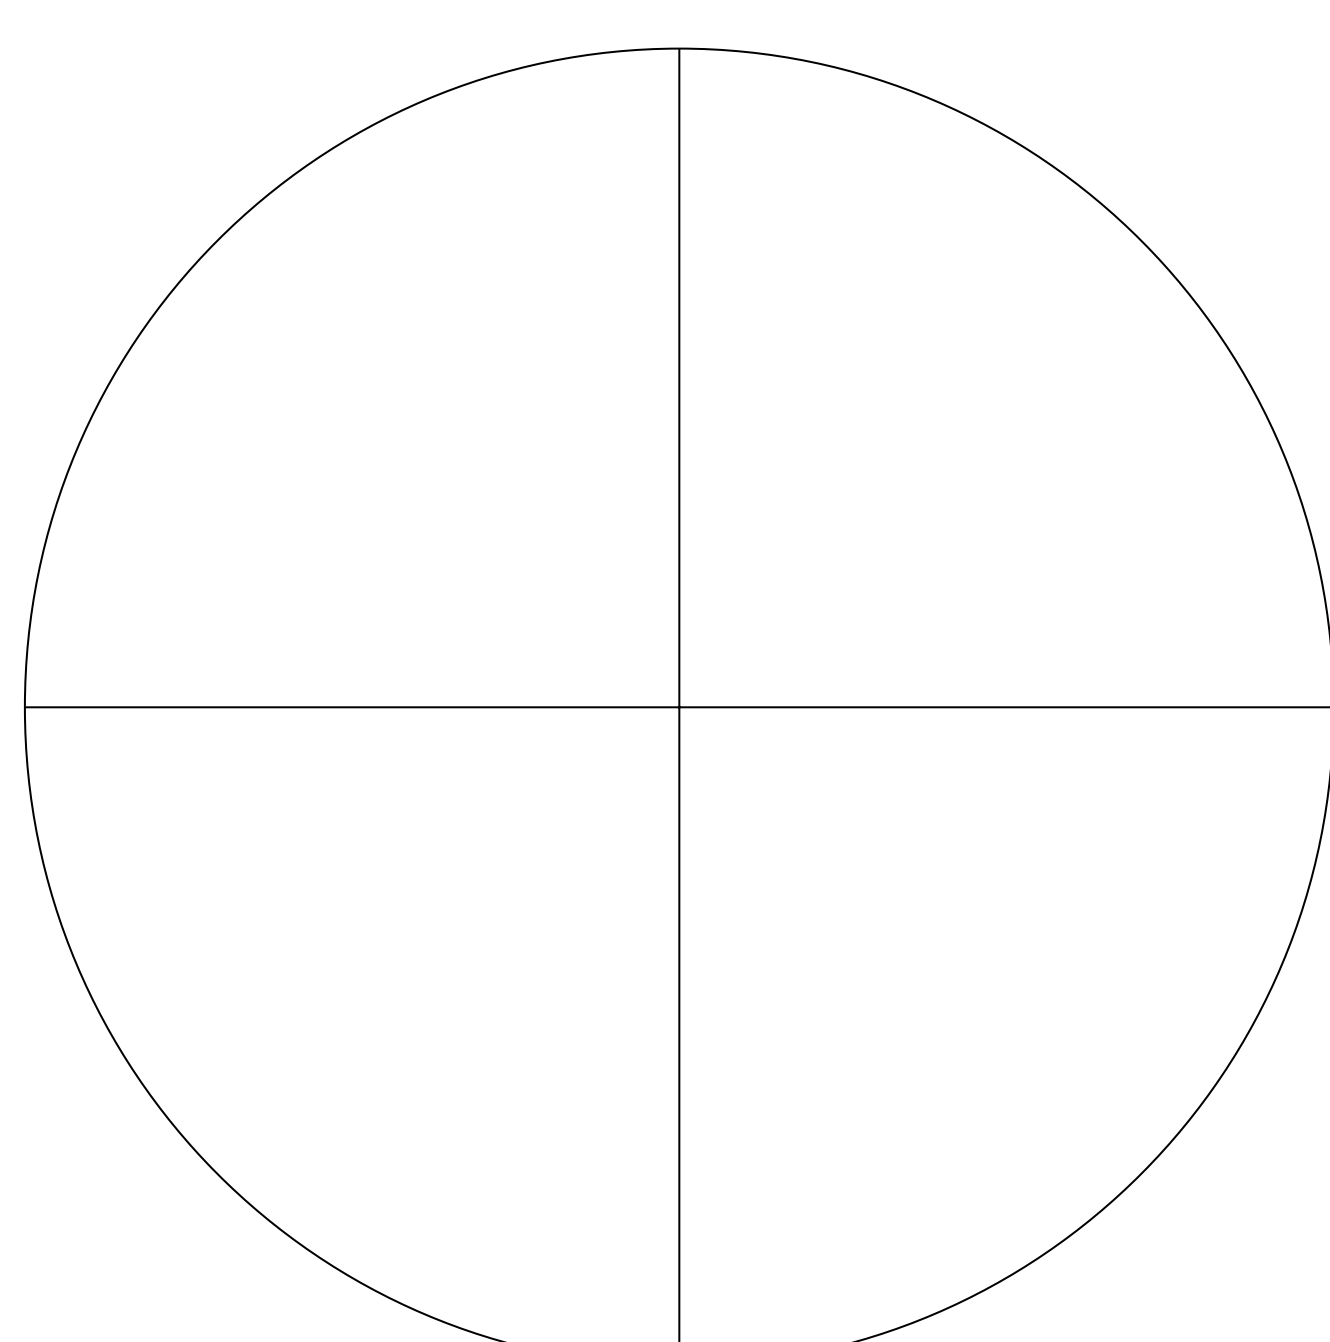

The title should be in capitals Arial 80, the authors' names and affiliation in Arial 48 and the email address of the corresponding author in Arial 44. The presenting author's name should be underlined. If the title exceeds two lines or if there are more than three authors, please decrease all elements of the title size.

The T&BWF logo should neither be removed nor modified (size). The affiliation logo(s) should be inserted in a box of 0.10 x 0.16 m.

The footer should not be modified.

Results – Text

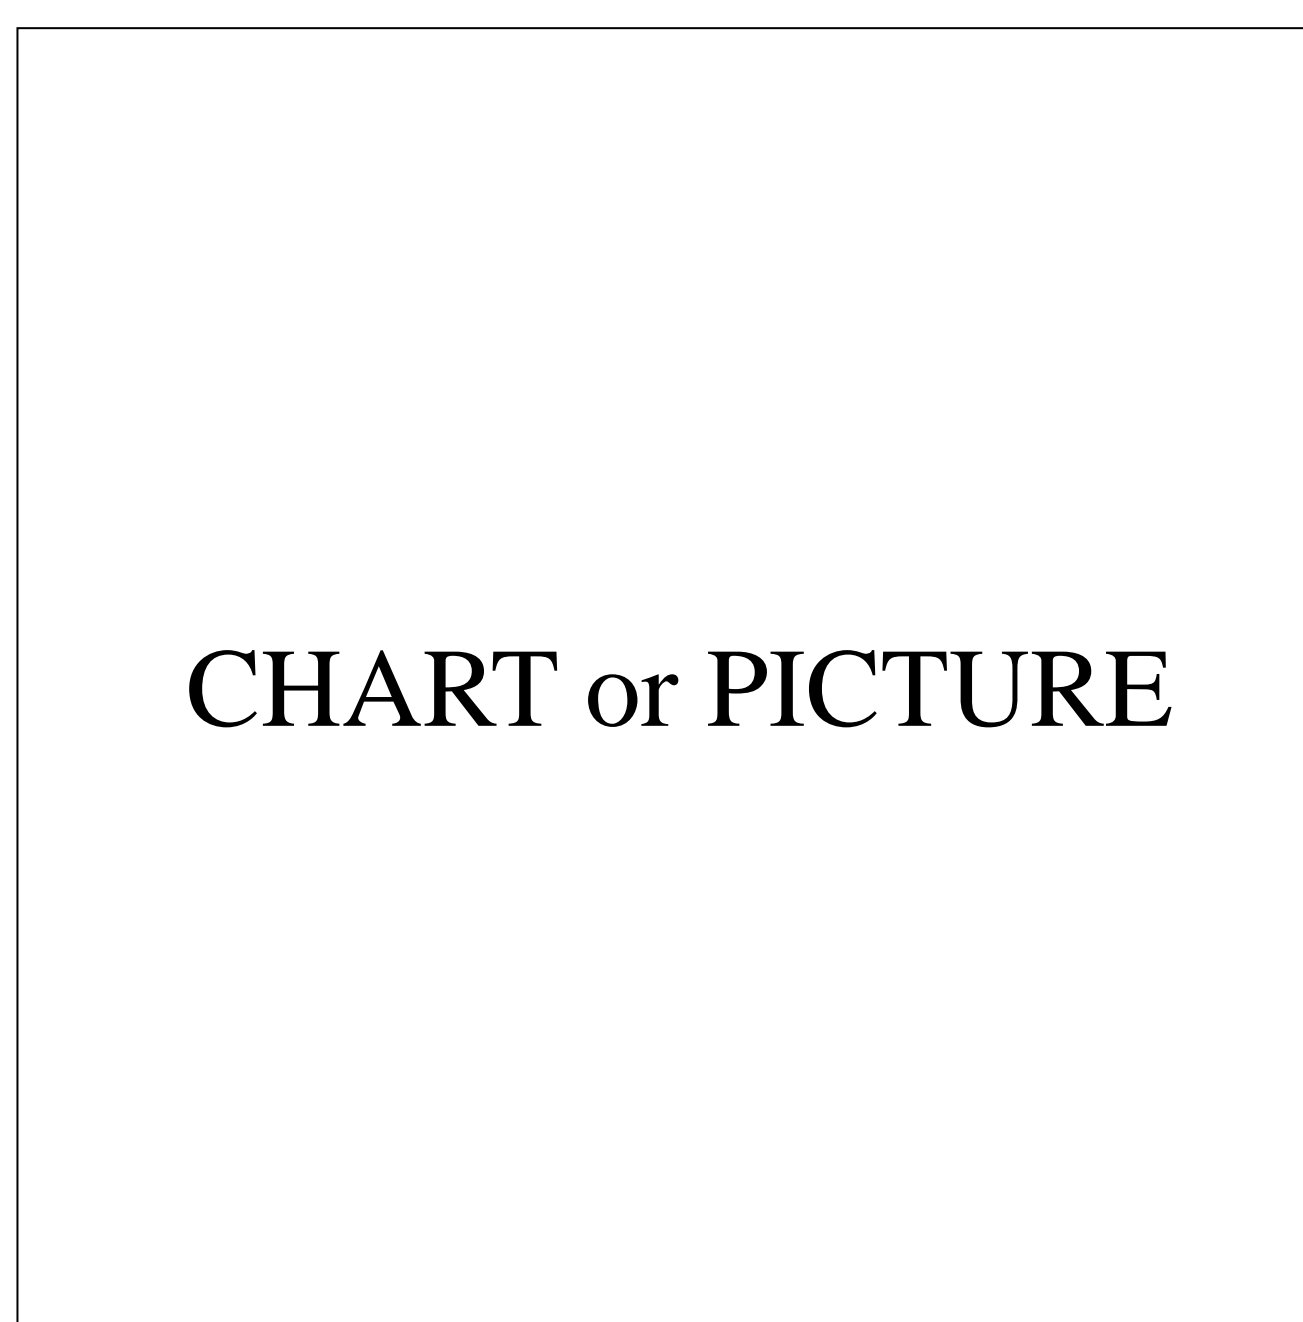

Legend of figure

The section headings are indicative and shall be in Time New Roman (TNR) 70. The main text shall be in TNR 36. Do not modify the height of the headings frame and do not change the size of the content frame.

The text must be clear and concise (more than this template!). Bullet points, enumeration and lists may be used. Please leave enough space around the title, text, figures and legends.

Illustrations and figures

Legend of chart

- At least one third of the total surface shall be occupied by pictures, diagrams, charts, sketches...
- Legends should be placed under the illustrations, in TNR36 bold.
- The legends inside the figures should have a size of TNR28.
- The pictures should be in high definition and easily readable.
- All units must be in S.I.
- Pictures should be free of rights.

Conclusions

A 2- column poster is the recommended format, though you may use a single column if appropriate. It is not advised to use three columns due to the size constraints of the poster. Concise and clear conclusions are expected.

The programme committee will notify the authors about the acceptance/rejection or required modifications. If accepted, the presenting author must register for the conference at a very low rate.
